AUTO FEED SHREDDER

- Save time with this new shredder from Techko featuring patented auto feed technology enabling up to 100 sheets per load and continuous shredding for up to 30 minutes. Simply lay the stack of paper in the feed tray and it will automatically pull the paper through and shred by itself – no need to feed by hand, no need to wait and no more sheet load limitations.
- This shredder also features random cross cut technology – it shreds the paper into three different shred sizes for extra confidentiality and security.
- Safety features include child safety master switch and LED indicators for waste bin full, overheat, power on, and overload (auto reverse).
- In addition, the pull out waste bin has a foot pedal and swings open for easy discarding of other office waste.
